You can rest assured that we've always got you covered

Did you know that you can receive a non-conformance from the auditors if your Declaration of Compliance (DoC) doesn't meet legal requirements?

Unlike many cleaning tool suppliers, Vikan produces a DoC for every single Hygiene product you use. Based on a migration analysis of the plastic used to produce the tool, our DoCs meet all legal requirements and are always up to date. Each DoC covers food contact types and recommended usage times and temperatures.

This makes a Vikan DoC your – and the auditor's – guarantee that your cleaning tools are free of materials that can contaminate the food you produce with toxic substances.
